ALL PIs

No. 16-80

TITLE/SIGNIFICANCE:

EM-EL-06 RADAR

**COMMENT:** The EM-EL-06 radar is probably a Long Range acquisition radar for use with tactical defensive SAM systems, most likely the EMBA-01 (ATAIDS) TELAR. The radar was also possibly tested for use as a SA-4 brigade level radar. The antenna/(See artist concepts) screen is approximately [ ] and may fold in two possible ways. The antenna screen is mounted on a tracked chassis approximately [ ] In the travel mode the radar screen folds down and extends over the front of the vehicle. (Also see reverse)
